Mr. Magoo celebrates 2025 going warmer

^{IT} Mr Magoo non è solo una lampada, ma una vera e propria scultura luminosa. Le sue linee sinuose e organiche evocano la delicatezza di una nuvola, trasformando lo spazio con un'eleganza eterea. La sorgente è completamente integrata ed emette una luce morbida e diffusa. Più elementi permettono la creazione di scenografie di ampio respiro.

^{EN} Mr Magoo is more than just a lamp—it is a luminous sculpture. Its sinuous, organic lines evoke the softness of a cloud, transforming any space with an ethereal elegance. The light source is entirely integrated and emits soft and diffused light. Multiple elements allow the creation of an extensive array of scenographies.

Mr. Magoo

^{IT} Mr Magoo è una collezione dal design versatile, ideale per ambienti contract, pubblici e residenziali. Disponibile in versione sospensione, plafone e piantana ad arco, si distingue per le sue linee morbide e fluttuanti, capaci di valorizzare ogni contesto. Vincitrice del prestigioso Red Dot Design Award, unisce estetica organica e innovazione tecnica. Oggi si arricchisce della nuova temperatura colore 2700K, una luce calda che amplifica l'atmosfera accogliente, intima e rilassante. Con diverse misure e configurazioni, Mr Magoo si adatta con eleganza a ogni spazio, creando composizioni luminose raffinate, emozionali e personalizzabili.

^{EN} Mr Magoo is a collection with a versatile design, ideal for contract, public, and residential spaces. Available in pendant, ceiling-mounted, and arched floor versions, it stands out for its soft, flowing lines that enhance any environment. Winner of the prestigious Red Dot Design Award, it combines organic aesthetics with technical innovation. Today, it introduces a new 2700K color temperature, a warm light that enriches the atmosphere with a cozy, intimate, and relaxing feel. With various sizes and configurations, Mr Magoo adapts elegantly to any space, creating refined, emotional, and customizable lighting compositions.

Honey

IT Honey, disegnata dai fratelli Pio & Tito Toso, esplora il rapporto tra luce e forma attraverso un linguaggio modulare. Ogni elemento si combina armoniosamente, dando vita a strutture leggere e dinamiche. La diffusione della luce è studiata per valorizzare la tridimensionalità della composizione.

Honey

EN Honey, designed by brothers Pio & Tito Toso, explores the relationship between light and form through a modular language. Each element harmonizes seamlessly, creating lightweight and dynamic structures. The light distribution is carefully designed to enhance the three-dimensionality of the composition.

Pio & Tito Toso

^{IT} Honey Chandelier è una scenografica sospensione a tre livelli, maestosa ma leggera, protagonista in spazi contract come luxury hall di hotel, gallerie e piazze interne in mall e aree shopping, eleganti ingressi e su reception desk di pregio, ma anche punto luce dal carattere distintivo in ambienti residenziali con grandi altezze. Giocando con le distanze tra gli anelli, cambia aspetto adattandosi alla location: reinterpreta il classico chandelier in chiave contemporanea, con eleganza modulare ispirata alla geometria alveolare.

^{EN} Honey Chandelier is a striking three-tier suspension light, majestic yet airy, designed to take center stage in refined contract spaces such as luxury hotel lobbies, indoor promenades in malls and shopping areas, prestigious entrances, and above high-end reception desks. It also lends a distinctive presence to residential interiors with generous ceiling heights. Through the interplay of its layered rings, it reshapes its presence to harmonize with the location: a contemporary reinterpretation of the classic chandelier, with modular elegance inspired by honeycomb geometry.

^{IT} Honey gioca sulla ripetizione di un elemento modulare, che si moltiplica creando configurazioni lineari o circolari. La luce calda è diffusa nell'ambiente circostante e, schermata dal diffusore in policarbonato opalino, dà vita ad affascinanti sfumature. Da spenta Honey appare come una statuaria scultura bianco ghiaccio con finitura lucida; da accesa cambia completamente aspetto, diffondendo una luce morbida con sfumature che evocano la fiamma delle candele. Confortevole ed elegante, Honey diventa protagonista discreta dello spazio, con un tocco di stile e leggerezza visiva.

^{EN} Honey plays with the repetition of a modular element, multiplying to create linear or circular configurations. The warm light is diffused throughout the surrounding environment and, filtered through the opaline polycarbonate diffuser, gives rise to fascinating nuances. When switched off, Honey appears as a statuesque ice-white sculpture with a glossy finish; when lit, it completely transforms, emitting a soft glow with shades that evoke the flicker of candlelight. Comfortable and elegant, Honey becomes a discreet protagonist of the space, adding a touch of style and visual lightness.
